

Thursday, February 27th, 2014

4:00-5:30pm

**W201 Millennium Science Complex
University Park Campus**

February Meeting: Research Group Talks

Vector/Parasite Biology

Courtney Murdock (Thomas Lab)

“Rethinking vector immunology: the role of the environment in shaping resistance”

Molecular Parasitology

Sony Shrestha (Cui Lab)

“Translation regulation during gametocytogenesis by one of the Puf-family proteins, PfPuf1”

Modeling of Parasite Dynamics

Megan Greischar (Read and Bjornstad Labs)

“Predicting the consequences of malaria parasites’ diverse life history”
